GLOSSARY	7

408.03I Green Rewards Efficiency Measure Verification

For all Green Rewards Mortgage Loans, the Servicer must ensure a Green Rewards Verification inspection is performed for all Efficiency Measures to confirm correct installation, and identify any errors that may hinder the Property achieving the expected savings and benefits.

1. Green Rewards Verification Inspection

For a Green Rewards Verification inspection, the inspector must use the Green Rewards Verification Inspection Form ([Form 4221](#)) that is pre-populated with Property information and the Efficiency Measures identified as Green Rewards Repairs in the Completion/Repair Schedule. The Servicer must submit [Form 4221](#) within 60 days after the Green Rewards Verification inspection date, and timely resolve any issues identified by Fannie Mae.

2. Minimum Inspector Qualifications

Third-party or Servicer staff must attend Fannie Mae's Green Rewards Verification inspection training on the requirements, processes, and documentation before conducting Green Rewards Verification inspections.

The minimum inspector qualifications correspond to the applicable Efficiency Measure type, and may be held by the inspection project team, rather than by an individual inspector.

3. Unit Inspection

The inspector must inspect a minimum number of occupied and vacant units as follows:

Total number of units	Minimum number of units to be inspected
Less than 20	3 units
20 - 55	5 units
56 - 99	10% of total units
100 - 200	10 units
201 - 600	5% of total units
More than 600	30 units

[Form 4221](#) calculates the required number of units and tracks the number of completed units based on the user's inputs. When unit inspections are required, the Servicer must:

- Determine the appropriate combination of vacant and occupied units for inspection.

- Determine which vacant and occupied units to inspect.
- Submit at least:
 - 1 representative photograph of each Efficiency Measure listed on [Form 4221](#); and
 - 1 photograph of each non-compliant Efficiency Measure.

For Partial Efficiency Measures, the Servicer must request a rent roll or other documentation identifying the units that received Partial Efficiency Measure installations, and conduct the Green Rewards Verification of those units.

4. Determining Compliance

An Efficiency Measure is compliant when the inspector:

- inspects each Efficiency Measure;
- verifies its proper installation within specifications using product information and field observation;
- confirms the Efficiency Measure installation meets the Multifamily Loan Agreement and Completion/Repair Schedule requirements; and
- documents it on [Form 4221](#).

5. Remediating Noncompliance

When an Efficiency Measure is noncompliant:

- The Servicer must:
 - provide a notice of the Efficiency Measure deficiencies to the Borrower and determine a course of action;
 - submit a remediation action plan through the DUS Property Monitor system that:
 - addresses the Property's Efficiency Measure deficiencies; and
 - provides a target date for remediation completion that is no more than 60 days after the Borrower receives the notice of deficiencies.
- The Borrower must correct or complete the Efficiency Measure installation during the remediation period.
- Fannie Mae may require the Servicer to inspect the remediated Efficiency Measures based on the severity of noncompliance.

6. Verification Inspection Form Review

The Servicer must internally review all Green Rewards Verification Inspection Forms ([Form 4221](#)), whether prepared by a third party or by the Servicer before submission.
