### Operating Procedures

Fannie Mae will engage outside counsel at your expense to review all Interest Rate Cap-related documents.

## 1807.04 Cap Strike Rate

### Operating Procedures

The Borrower must purchase an Interest Rate Cap with a Cap Strike Rate that is determined

- for a Credit Enhancement Instrument, by Fannie Mae, or
- for an MBS for Bonds, per Part III, Chapter 11: Structured Adjustable Rate Mortgage (SARM) Loans, Section 1105.02: Determining the Cap Strike Rate.

## 1807.05 Cap Cost Factor Included in Maximum Note Rate

### Requirements

When determining the Maximum Note Rate used to calculate the minimum required Underwritten DSCR, you must include a cap cost factor based on the term of the

- Credit Enhancement Mortgage Loan, and
- initial Interest Rate Cap.

You do not need to include a cap cost factor if the initial Interest Rate Cap term equals the Credit Enhancement Mortgage Loan term.

You must ensure the cap cost factor equals the

- estimated cost of the replacement cap (when the term of the initial cap expires), divided by
- term of the initial cap.

### Operating Procedures

For example, to calculate the cap cost factor assuming a 5-year Interest Rate Cap and 10-year Credit Enhancement Mortgage Loan term:

- You must include an annual cap cost factor in the Maximum Note Rate.
- If the Credit Enhancement Mortgage Loan term is 10 years and an initial cap is purchased for a 5-year term, the cap cost factor equals the estimated cost of a replacement cap divided by 5 (the number of years of the initial interest rate term).
- The replacement cap has a 5-year term and a Cap Strike Rate equal to that of the initial cap.
- If a 5-year Interest Rate Cap at the initial Cap Strike Rate costs 20 basis points, you must divide 20 by 5, then add the result (4 basis points) to the Maximum Note Rate.

## 1807.06 Interest Rate Cap Reserve

### Requirements

You must ensure the Borrower fully funds a cash reserve to purchase replacement Interest Rate Caps.

### Operating Procedures

- If the initial Interest Rate Cap Agreement term is 5 years, you must ensure the Borrower funds the cash reserve with each monthly Mortgage Loan payment during the term.
- Calculate the monthly reserve payments for the first 6 months using the estimated cost of a replacement Interest Rate Cap with a 5-year term and the initial Cap Strike Rate.
- If the initial Interest Rate Cap term is more than 5 years, you must ensure the Borrower's monthly reserve payments for the replacement cap begin no later than 5 years before the existing Interest Rate Cap expires.

### Guidance

For example, if

- a 5-year initial Interest Rate Cap is purchased with a 10-year term and a 6.00% Cap Strike Rate, and
- the cost of a replacement 5-year cap with a 6.00% Cap Strike Rate is \$140,000, then
- the monthly reserve for the first 6 months would be \$2,333.33 ( $\$140,000 \div 60$  months).

### 1807.07 Interest Rate Cap Reserve Adjustments

#### Requirements

You must evaluate the Interest Rate Cap reserve every 6 months. If the replacement Interest Rate Cap cost:

- increased, you must raise the monthly reserve payment to purchase the replacement Interest Rate Cap before the existing Interest Rate Cap expires; or
- decreased, do not adjust the reserve.

When a replacement Interest Rate Cap is purchased, the reserve cycle resets to match the term of the new Interest Rate Cap. Any amount remaining in the reserve after purchasing the replacement Interest Rate Cap must be used to fund the subsequent reserve.

### 1807.08 Interest Rate Cap Contract Documentation and Delivery

#### Requirements

For credit enhancements using:

- an MBS, you must comply with [Part III, Chapter 11: Structured Adjustable Rate Mortgage \(SARM\) Loans, Section 1105.04: Interest Rate Cap Contract Documentation and Delivery](#); or
- a Credit Enhancement Instrument, this Section applies.

#### Operating Procedures

Topic	Process
Cap Provider Payment	<p>You must ensure the Interest Rate Cap provider pays you or the Bond Trustee directly</p> <ul style="list-style-type: none"><li>• on the 1st or 15th day of the month corresponding with the Bond payment dates, and</li><li>• when the Bond interest rate index is greater than the average Cap Strike Rate for a month.</li></ul> <p>Only disburse a provider payment to the Borrower if</p> <ul style="list-style-type: none"><li>• there is no Mortgage Loan default, and</li><li>• you received all payments due under the Indenture and Bonds for that month.</li></ul> <p>If the Borrower defaults under the Mortgage Loan or Reimbursement Agreement, you must</p> <ul style="list-style-type: none"><li>• promptly notify Fannie Mae and any applicable Bond Trustee, and</li><li>• direct the Bond Trustee to suspend its payment to the Borrower.</li></ul>
Timing	<p>The Borrower must accept a bid for the initial Interest Rate Cap in writing from a Fannie Mae approved provider before you request a Commitment.</p>
Purchase Price	<p>The Borrower must pay the entire purchase price for an Interest Rate Cap to the provider when the Interest Rate Cap Agreement is issued.</p>
Pledge to Fannie Mae	<p>The Borrower must pledge its interest in the Interest Rate Cap and any reserve to Fannie Mae using the documentation provided by Fannie Mae's counsel.</p>
