1907.06 Interest Rate Cap Reserve Adjustments

Requirements

You must evaluate the Interest Rate Cap reserve every 12 months. If the replacement Interest Rate Cap cost:

- increased, you must raise the monthly reserve payment to purchase the replacement Interest Rate Cap before the existing Interest Rate Cap expires; or
- decreased, do not adjust the reserve.

When a replacement Interest Rate Cap is purchased, the reserve cycle resets to match the term of the new Interest Rate Cap. Any amount remaining in the reserve after purchasing the replacement Interest Rate Cap must be used to fund the subsequent reserve.
