Section 605 Survey

Requirements

If you obtain an acceptable as-built survey of the Property, it must comply with Part II, Chapter 3: Legal Compliance, Section 305: Survey.

Guidance

You should ensure that the survey only shows the location or dimensions of

- the individual MH Sites,
- any individual Manufactured Homes or recreational vehicles, and/or
- the related MH Site or recreational vehicle site, piers, and/or foundations, that constitute encroachments.

605.01 Public Roadways, Private Interior Roadways, and Drives

Guidance

You should ensure that the survey accurately shows all public roadways.

For any private interior access roads, streets, drives, parking areas, visible utilities, and structures without foundations, the survey:

- does not need to show them accurately from field measurements, unless they constitute encroachments;
- should include a sketch showing their approximate location; and
- may locate them by photogrammetric or other approximate methods.

605.02 Setbacks

Guidance

You should identify and show 2 different types of setbacks on the survey:

- setback restrictions shown in documents of record; and
- setbacks imposed by applicable zoning ordinances or building codes.

You should ensure that the survey:

- states that the zoning setbacks apply only to permanent buildings and not

to the Manufactured Homes; and

- includes recorded references or citations to authority for the zoning setbacks, or gives the reason why this information is not available.

605.03 Encroachments

Guidance

You may show the following encroachments by a simple indicating mark (i.e., a distinctive mark or symbol identified in the legend), without indicating dimensions:

- nonpermanent outbuildings or other structures; and
- recreational vehicles that are not set upon a supporting foundation, MH Site, or pier.
