Part II Section 503.02 Seismic Risk Assessment (SRA)	3
GLOSSARY	4

503.02 Seismic Risk Assessment (SRA)

Requirements

You must obtain a Level 1 SRA dated within 12 months before the Commitment Date for any Property with one of the Structural Risk Factors listed in [Form 4099.C](#).

The SRA must:

- meet the ASTM seismic standards (ASTM E2026 – Standard Guide for Seismic Risk Assessment of Buildings and ASTM E2557 – Standard Practice for Probable Maximum Loss (PML) Evaluations for Earthquake Due Diligence Assessments);
- include estimates for the Scenario Expected Loss (SEL) and the Scenario Upper Loss (SUL);
- use a 10% probability of exceedance in a 50-year period;
- meet ASTM seismic standard professional qualifications;
- include structured data per Seismic Risk Assessment Data Supplement ([Form 4093](#)); and
- include a report narrative.

Guidance

For Small Mortgage Loans, the SRA field investigation may be performed by a PCA consultant or field observer if that professional has at least 2 years of experience performing seismic risk assessments of buildings.

A new SRA is not required for Supplemental Mortgage Loans; you may rely on the original underwriting seismic analysis.
