GLOSSARY	4

503.05 Seismic Risk Mitigants

➔ Guidance

For any Property where any Improvements have an SEL greater than 20% or a building stability issue, you should consider the following to mitigate seismic risk:

- perform a seismic retrofit sufficient to resolve all stability issues and reduce the SEL of all Improvements to 20% or below; and
- obtain earthquake insurance coverage per [Part II, Chapter 5: Property and Liability Insurance, Section 501.03D: Earthquake Insurance](#).

Earthquake insurance does not mitigate building collapse risk.

Glossary

I

Improvements Buildings, structures, improvements, and alterations, including the multifamily housing dwellings, now or hereafter constructed or placed on the Property, including all fixtures (as defined in the UCC).

P

Property Multifamily residential real estate securing the Mortgage Loan, including the

- fee simple or Leasehold interest,
- Improvements, and
- personal property (per the Uniform Commercial Code).
