**203.08** Monthly MBS Mortgage Loan Reconciliations - Pool-to-Security Balance Reconciliations (Not Applicable to PFP MBS)

**203.08A** Reconciliation Required

At the end of each Reporting Period, the Servicer must reconcile the actual ending Mortgage Loan balance for the Mortgage Loan in any given Security Pool to the ending Security Balance for that Security Pool. To perform this reconciliation, the Lender must use the following calculation:

Function	Ending Principal Balance for the Mortgage Loan in Security Pool (from current month)
PLUS	Prepaid Principal (as of current month)
MINUS	Delinquent Principal (as of current month)
MINUS	Scheduled Principal (as of current month)
PLUS	Principal Portion of Last Installment for Liquidated Mortgage Loan (as of current month)
	<b>Adjusted Principal Balance for Security Pool</b>
MINUS	Ending Security Balance for Reporting Period
EQUALS	<b>Difference</b>

**203.08B** Rounding Adjustment

Because the total amount of the Mortgage Loan that is issued for a Security Pool is rounded down to the next lowest whole dollar amount of the actual “Issue Date Principal Balance of the Mortgage Loan”, the Security Balance will be smaller than the actual UPB of the Mortgage Loan. The difference will never be greater than \$0.99 for a single Security Pool. The Servicer must adjust for this difference in the first monthly accounting report it submits after the Issue Date of the Security, classifying it as an “unscheduled” principal adjustment.

**203.08C** Required Annual Adjustment to Correct Principal Balance vs. Security Balance Difference

Other differences may arise in the reconciliation between the UPB of the Mortgage Loan in a Security Pool and the outstanding Security Balance. These differences cannot exceed more than \$0.25 for any Mortgage Loan in the Security Pool. At least once a year, the Servicer must make an adjustment to correct any differences.

### **1. If Security Balance is Greater than UPB**

If the Security Balance is higher than the UPB of the Mortgage Loan, the Servicer must immediately deposit the funds in the “scheduled/scheduled” P&I Custodial Account for Security Pools so that the funds can be passed through to Fannie Mae (as an “unscheduled” principal collection) with the Servicer’s next monthly remittance.

### **2. If Security Balance is Lower than UPB**

If the Security Balance is lower than the UPB of the Mortgage Loan, the Servicer may adjust a subsequent pass-through amount that includes an “unscheduled” principal collection to correct for this difference.

## **203.08D Pool-to-Security Reconciliation Certification**

The eServicing System produces a Pool-to-Security Reconciliation on a monthly basis to assist Servicers with review. Servicers are required to review and certify any pool-to-security difference each month by month end. Differences occur when the MBS pool security balance does not match the sum of the scheduled UPB of the Mortgage Loan. Fannie Mae calculates pool-to-security differences after monthly Mortgage Loan and Security reporting is complete. For each pool with a difference, the Servicer must review the deficiency, research the difference, and determine the appropriate remedy. The Servicer’s certification includes the identification and selection of a deficiency reason, and a statement of how it should be resolved.
