Part II Section 109 Phased Properties 3
GLOSSARY 5

Requirements

If the Property is a Phased Property, you must evaluate

- how the Property will be affected by other phases, and
- if the Property can succeed independently from other phases.

Guidance

In determining if a Phased Property is viable as a separate Property, you should consider if:

- its ownership and operation are separate from all other phases of the complex;
- the Borrower is able to provide a separate leasing office;
- your underwriting has discounted any benefits derived from staff or facilities shared with other phases;
- the records and accounts used to underwrite the Property are separate from those of other phases;
- any cross-easements for the complex will survive an adverse action against another phase;
- any development of a future phase could materially interfere with or disturb the Property's
  - occupancy,
  - marketability,
  - or living environment; and
- the Property is:
  - marketable to tenants or a new owner, separately from other phases;
  - visible to the public without passing through another phase of the complex; and
  - accessible from a public roadway.

In assessing the impact of future phases on a Property, you should consider:

- the short-term impact of construction activity; and

© 2026 Fannie Mae. Trademarks of Fannie Mae.

- long-term implications for the continued economic viability of the Property, taking into account the allocation of costs for shared facilities (such as roadways).

Requirements

You may only Deliver a Mortgage Loan on a Phased Property if Fannie Mae holds all other Mortgage Loans secured by other phases of the complex.

When the Phased Property is owned or Controlled by the same Borrower or Principals as the other phases in the complex:

- all Fannie Mae Mortgage Loans on each phase must be cross-defaulted and cross-collateralized;
- when any new Phased Property Mortgage Loan is underwritten, the actual amortizing DSCR (per Form 4254.DEF) and current LTV for all existing Mortgage Loans on each phase must comply with Form 4660 for the same loan term, product, and Pricing and Underwriting Tier, where each property value is determined by
  - dividing the current NCF by the capitalization rate (i.e., a Direct Cap with Sales Comparables analysis),
  - broker's opinion of value, or
  - most recent Appraisal; and
- the new Phased Property Mortgage Loan must have a Prepayment Premium Period End Date on or before the Prepayment Premium Period End Date of the Mortgage Loans on the other phases.

Guidance

If a future phase is expected, consider issuing the first phase MBS with a potential future cross.
