GLOSSARY .....	4

## **203.08B** Rounding Adjustment

Because the total amount of the Mortgage Loan that is issued for a Security Pool is rounded down to the next lowest whole dollar amount of the actual “Issue Date Principal Balance of the Mortgage Loan”, the Security Balance will be smaller than the actual UPB of the Mortgage Loan. The difference will never be greater than \$0.99 for a single Security Pool. The Servicer must adjust for this difference in the first monthly accounting report it submits after the Issue Date of the Security, classifying it as an “unscheduled” principal adjustment.
