

The following Green Building Certifications are recognized and approved by Fannie Mae. To qualify as a Green Mortgage Loan, (i) one of the following Green Building Certifications must have been awarded to the Property, and (ii) the Green Building Certification must:

- apply specifically to the Property and not to a larger development site that includes the Property;
- cover all residential units of the Property and all buildings or spaces considered common areas;
- have been awarded:
  - for the ENERGY STAR®, Existing Multifamily Buildings Certification from the U.S. Environmental Protection Agency, within one (1) year prior to the Mortgage Loan Origination Date;
  - for all certifications issued by the Green Building Initiative, on or after January 1, 2021 and accompanied by a:
    - letter from the Green Building Initiative affirming that the Property met minimum energy requirements for certification; and
    - a valid certification version (2.1 or higher); and
  - for all other recognized Green Building Certifications, within the five (5) years prior to the Mortgage Loan Origination Date;
- be current (e.g., not pending or expired) at the time of:
  - Rate Lock, if not using the Streamlined Rate Lock option; or
  - the Mortgage Loan Origination Date, if using the Streamlined Rate Lock option; and
- have been reviewed and approved by the Lender prior to:
  - Rate Lock, if not using the Streamlined Rate Lock option; or
  - the Mortgage Loan Origination Date, if using the Streamlined Rate Lock option.

If the Property has a certification from an organization listed below but a different version than listed, the Lender must contact [Green\\_Financing@fanniemae.com](mailto:Green_Financing@fanniemae.com) to confirm the eligibility of the Property.
